

A Weekend Introduction to the HANDLE® Approach

Holistic Approach to NeuroDevelopment & Learning Efficiency

A course for families, professionals and people interested in learning more about the underlying reasons for learning issues and difficulties.

This course is a hands-on, interactive introduction to HANDLE and how this unique, comprehensive and simple approach can help people understand the root causes of neurodevelopmental differences including: **Autism, ADHD, dyslexia, dyspraxia, brain injury, language delay, Tourette's Syndrome and behavioral difficulties.**

It offers an effective, holistic and drug free therapy for all ages. You will learn fun and inexpensive therapeutic activities that can be used at home, school or work.

Trainer: Sean Williams is a HANDLE trainer and practitioner. He has been working internationally with adults and children with a wide range of learning difficulties for 9 years.
