- dyslexia
- reading & writing difficulties
- tics and Tourette's Syndrome
- general learning disabilities

## **Instructor: Carolyn Nuyens**

*Certified HANDLE Instructor  
Certified HANDLE Practitioner*

*One teacher's experience:* "I am a Special Ed teacher, and in my classroom last year I had three brothers ages 15,13 and 9. All three have ADHD and Learning Disabilities. The oldest one had been in my class for four years. He read at a first grade level and despite any methods of instruction or interventions I used, I couldn't seem to help him progress. I did the [HANDLE activities] Face and Skull Tapping, Fist Flower, Ear Muffs and hula hoop activities with all three boys. In one week the oldest improved his reading by three grade levels. I did nothing else different. The youngest went up a little over a year in reading levels and the middle boy...with the least disability... reported an increased ability to concentrate and focus." – Linda Ozier, Special Education teacher

"I am seriously impressed. This work touches the nerve of virtually everything taking place in our current cultural crisis of childhood." Joseph Chilton Pearce, author of *Magical Child, Evolution's End, The Biology of Transcendence*

### **ADVANCED REGISTRATION REQUIRED**
